The Professional Behind the Work

Vollmann Olamide Akarakiri is a results-driven Construction Project Manager with 5+ years delivering residential, commercial, and mixed-use building projects from planning and design through execution and completion across multiple Nigerian states.

He has coordinated 20+ concurrent project sites and contributed to projects exceeding ₦350 million in cumulative value — generating over ₦10 million in savings through cost control, procurement oversight, and error prevention.

Skilled in planning and scheduling, budgeting and cost forecasting, contract and procurement administration, regulatory compliance, site supervision and health & safety — with strong technical capability in BIM (Revit, AutoCAD, Dynamo, Navisworks).

2014 – 2019

Software & BIM Skills

Industry-standard tools deployed across every project phase — from digital model to physical delivery.

Autodesk Revit

Expert — BIM Modelling

Full architectural BIM models for 30+ office, residential and interior projects. Family creation, documentation sheets, schedules and coordinated model production.

Dynamo for Revit

Advanced — Parametric Automation

Custom parametric workflows and automation scripts that reduce documentation time and enable data-driven design coordination.

AutoCAD

Expert — Technical Drawing

2D technical drawing, site plans, detailed construction and working drawings, and detailing packages for 10+ residential properties.

Navisworks

Proficient — BIM Coordination

Multi-discipline model coordination, clash detection and resolution, 4D construction sequencing and project review workflows.

Microsoft Project

Proficient — Project Scheduling

Scheduling, milestone tracking, resource planning and programme management for large multi-site construction programmes.

MS Excel & Office Suite

Advanced — Reporting & Cost Control

Budget tracking, cost forecasting, progress reporting, procurement schedules and management reporting across concurrent sites.

Professional Experience

5+ years of progressive responsibility across construction, site engineering and design — from intern to Engineering Lead.

Aug 2021 – Feb 2026

Project Manager / Engineering Lead

Nu-Avenue Company Resources

- Directed construction delivery across 20+ concurrent project sites in multiple Nigerian states, contributing to projects exceeding ₦350 million in cumulative value.
- Generated over ₦10 million in savings through cost control, vendor coordination and error prevention.
- Produced BIM models for 30+ office, 10+ residential and 10+ interior projects.
- Coordinated architects, consultants, engineers, suppliers and contractors to ensure quality, safety and on-time delivery.

Jun 2020 – Aug 2021

Site Engineer / Assistant Technical Designer

Nature's Beauty Construction

- Planned and supervised 110+ site-development and landscape projects across multiple states.
- Produced detailing packages for 10+ residential properties.
- Trained 5+ employees; contributed to business opportunities exceeding ₦20 million.

Dec 2019 – Apr 2020

Site Supervisor

Lego Construction Company

- Developed project plans, contract documents, schedules and budgets.
- Facilitated interdisciplinary coordination meetings and supported client engagement.

Aug 2017 – Dec 2017

Architecture & Planning Intern

Danzinger Nigeria Ltd

- Assisted management of consulting activities exceeding ₦10 million.
- Assisted drafting, BIM updates and documentation.

Nov 2015 – Feb 2016

Landscape Design & HSE Intern

Nature's Beauty Construction

- Participated in on-site HSE activities and risk assessments.
- Performed material, equipment and cost estimation for planning.

Areas of Expertise

Six specialist disciplines — one integrated professional delivering from concept to completion.

Building Projects

30+ office, 10+ residential and 10+ interior projects delivered. Full architectural design and BIM documentation from concept through construction drawings.

50+ PROJECTS DELIVERED

BIM & Revit

Advanced BIM modelling, Dynamo automation, Navisworks coordination and construction documentation across residential, office and interior projects.

REVIT · DYNAMO · NAVISWORKS

Residential & Schematic Design

Residential design and schematic drawings for housing developments — space planning, layout design and technical documentation packages.

HOUSING & LAYOUTS

Landscape Design

110+ site-development and landscape projects across multiple states — hardscape, softscape, drainage integration and site beautification.

110+ SITE PROJECTS

Construction & Site Engineering

End-to-end site engineering across 20+ concurrent sites — excavation, foundations, structural works, drainage, roofing, finishes and handover.

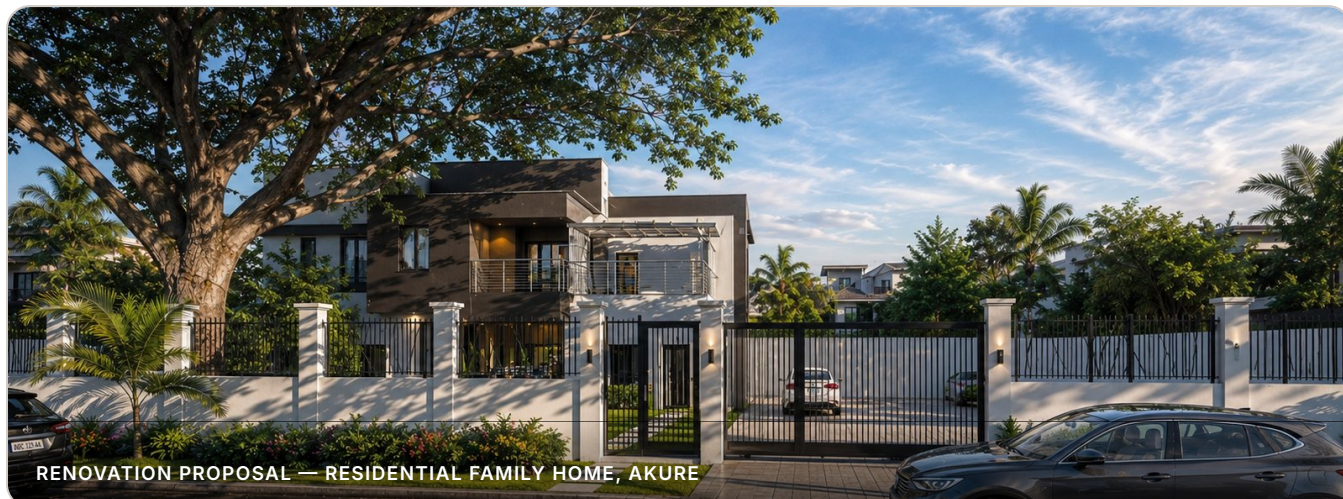

20+ CONCURRENT SITES

Furniture & Kitchen Design

Bespoke furniture and kitchen design — layout planning, material specification and design documentation for residential and commercial fit-outs.

BESPOKE FIT-OUTS

RENOVATION PROPOSAL — RESIDENTIAL FAMILY HOME, AKURE

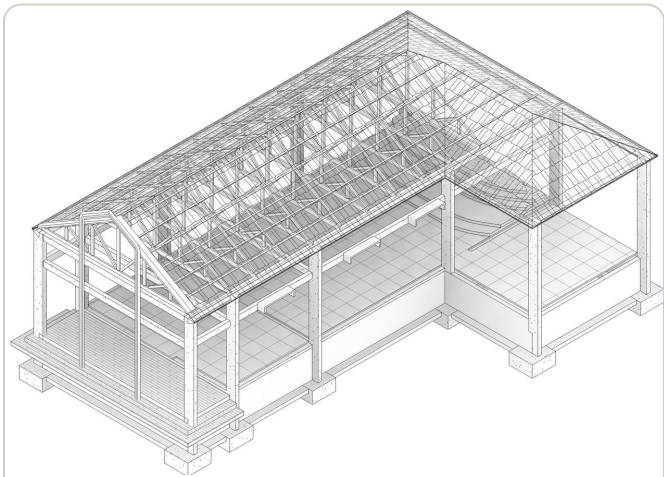

Hall of Worship, Ado
